

Background

Our esteemed client, Lukoil Lubricants GmbH, entrusts our global translation company with ongoing crucial tasks: regularly translating and proofreading their documents, including catalogues and reports. Operating in diverse markets, they require seamless translation services for an array of languages, ensuring effective communication with their international audience and business partners.

Our team of skilled linguists and DTP experts from Global Voices consistently rises to the occasion to translate and proofread the client's catalogues and reports across multiple languages, including English into Czech, Danish, Dutch, Finnish, French, Hungarian, Italian, Norwegian, Slovak, and Swedish. Additionally, our DTP team undertakes the task of formatting and designing the client's extensive catalogues.

Challenge

Twofold: dealing with highly technical content, necessitating precise translation and the large document volume, especially when it comes to DTP.

Outcomes

- Translation and proofreading ensure that the client's technical content is accurately conveyed across languages.
- Through our DTP services, we elevate the client's catalogue with clear layouts, visually appealing designs, and attention to detail.
- By providing flawless translations and captivating DTP, we empower the client to communicate effectively with their international audience and business partners.
- Regular collaboration establishes a streamlined workflow.
